### SUMMARY

Entry-level **Cybersecurity Analyst** with experience in **SIEM monitoring**. Linux, vulnerability analysis, and incident documentation through hands-on labs and **Google Cybersecurity training**. Background in technical support handling high-volume cases while maintaining data security. Seeking a SOC Analyst role focused on threat detection and incident response.

### TECHNICAL SKILLS

- **Cybersecurity**
  - SIEM Monitoring, Threat Detection
  - IDS / Threat Detection
  - Vulnerability Management
  - Incident Response, IAM
  - IAM
  - Security Best Practices

### CYBER PROJECTS

- **Home Lab Security Testing**
  - Built a virtual lab using Kali Linux
  - Simulated brute-force attacks and analyzed authentication logs to identify attack patterns.
  - Used Wireshark to inspect network traffic and identify suspicious activity.
  - Documented findings and created SIEM dashboards.

### CYBER PROJECTS

- **Home Lab Security Testing**
  - Built a virtual lab using Kali Linux
  - Simulated brute-force attacks and analyzed authentication logs to identify attack patterns.
  - Used Wireshark to inspect severity and identify suspicious activity.
  - Documented findings and created incident

### EXPERIENCE

- **Customer Representative** · Everise  
Nov 2025 – Present
  - Assist 40+ customers daily with their reservations, flight changes, car support
- **AI Teacher** · CAS  
August 2025 – October 2025
  - Taught middle schoolers and guide students foundational AI concepts and responsible usage, provide strict insisfee.
  - Maintain strict confidentiality of customer data and account information.

### EDUCATION

- **Google Cybersecurity Certificate** · Google
  - Training in cybersecurity tools like IAM, SIEM, IDS. Linux, Python, SQL
- **Google AI Essentials** · July 2024
  - Prompt engineering, and responsible: AI Use.
- **Junior Web Developer** · Delgado Community College; 2021
- **ComPTIA Security+** (Course Completion) Alison, August; 2023
- **TESOL-Certificate** · International Open Academy, May 2020
